

what we offer

Porch Light Health's mission is to provide low-barrier, high access to evidence-based, medically focused addiction treatment for those affected by substance use disorders and related medical conditions.

We offer comprehensive outpatient Medications for Addiction Treatment (MAT), including addiction medicine management, outpatient withdrawal management, enhanced treatment services, telepsychiatry, infectious disease treatment, individual and group therapy, and advanced laboratory services.

Founded in 2014, we are a network with over 60 points of care, and have successfully treated more than 100,000 patients in Colorado and New Mexico for Opioid, Alcohol, Stimulant, Sedative, Nicotine, Cannabis and Polysubstance Use Disorders.

We focus on achieving three primary patient outcomes: harm reduction, improved quality of life and achieving patient-defined recovery.

MAT is a way to treat and manage alcohol and opioid addiction.

- MAT improves patient survival and increases retention in treatment
- MAT decreases illicit opioid use and other criminal activity among people with substance use disorders
- MAT increases patients' ability to gain and maintain employment
- MAT improves birth outcomes among women who have substance use disorders

add love

"To anyone reading this and is in a state of disarray and can't control their lives because of addiction, please please please go talk to these people, it will change your life forever! I'm a true example of that. Words can't explain the love I have for all those people."

- Alicia K.

what makes us different

Porch Light Health is dedicated to making recovery available to everyone who wants it. We treat all addictions and know that the window for seeking help can be a small one. Here are some things that make us unique:

- We accept all insurance and offer income-based self-pay options
- No one is turned away and no waitlist
- Appointments within 24–48 hours of initial contact
- It's outpatient care—so you can build a recovery plan around your life
- A dedicated team of addiction specialists
- One-on-one, private conversation with a medical provider at each appointment
- In-person or virtual individual or group therapy
- Virtual and Mobile Health Services
- Compassionate, judgment-free care, in a trusting, safe environment

Are you accepting new patients?

Yes. All of our clinics are accepting new patients. Individuals are not turned away.

Will you tell my loved one about my treatment?

There are multiple laws that protect your privacy. No information will be shared unless you give written permission.

Comprehensive Medications for Addiction Treatment

Our approach to addiction treatment:

Individualized Care Plans:

We tailor every treatment plan to meet the specific needs and goals of each patient. By understanding their history and circumstances, we create a road map that supports sustainable recovery.

Compassionate Professionals:

Our specially trained medical and behavioral teams take the time to listen and build trusting relationships. We provide a safe, non-judgmental environment where patients feel respected and heard.

All-Inclusive Support:

Beyond medication, we integrate behavioral therapies and counseling to tackle the underlying causes of addiction. This comprehensive approach helps patients develop coping strategies and rebuild their lives, without having to put them on pause.

Ongoing Collaboration:

Recovery is an evolving process. We work closely with patients, adjusting treatment plans as needed and providing continuous support to navigate challenges along the way.

get started

We get how hard it is to find long-term recovery from addiction. We know that it can be intimidating to make that first call and even harder to go to the first appointment.

We know you are worth it.

Our patients are people first. At Porch Light Health, our number one goal is making sure our patients receive individualized and thoughtful care. Treating addiction is not always easy, but we work hard to remove obstacles.

All of our clinics are judgment-free zones with compassionate staff and dedicated medical providers.

Start your successful recovery story today, we can help.
